## Du-Sweet™ Liquid

### Description

**Du-Sweet Liquid** is a feed premix (mixture of flavouring compounds) for inclusion in drinking water for piglets, calves, dairy cows and other animals to increase the water intake. A high water intake is crucial for the welfare of the animals. By including **Du-Sweet Liquid** in drinking water for animals in the first 3-7 days after weaning, the palatability of the water will be improved. It gives the water a sweet taste that is attractive for piglets and calves, as it reminds them of the mother's milk.

**Du-Sweet Liquid** contains NHDC (Neohesperidin dihydrochalcone – a sweetener that is 50-60 times sweeter than sugar), stevioside (*Stevia rebaudiana*) and spray-dried extracts of liquorice (*Glycyrrhiza glabra*).

### Specifications

<b>Contents</b>	Elements of NHDC (Neohesperidin dihydrochalcone, E959), stevioside ( <i>Stevia rebaudiana</i> ), spray-dried liquorice ( <i>Glycyrrhiza glabra</i> ) and preservatives
<b>Appearance</b>	Yellow liquid
<b>Stability</b>	Minimum 12 months, when kept in unopened or tightly closed packaging
<b>Storage</b>	Dry, cool (below 30°C)
<b>Packaging</b>	1 litre plastic bottles 5 litre plastic bottles

### Recommended dosage

<b>Piglets</b>	500-1000 ml / 1000 litres of drinking water
<b>Calves</b>	500-1000 ml / 1000 litres of drinking water
<b>Dairy Cows</b>	500-1000 ml / 1000 litres of drinking water
