Nor-Guard® 0V11J

Description

Nor-Guard® OV11J is a complementary feed with a high content of natural antioxidants. The product is especially developed to have a high solubility and can be used for all types of livestock. The product is a combination of grape extracts made from grapes (*Vitis vinifera*) and olive leaves (*Olea europaea*) with dextrose and maltodextrin as a carrier.

Nor-Guard OV11J contains a unique combination of water soluble and fat soluble antioxidants, and it provides all-round effects due to the synergism between antioxidants with different solubility in water and fats.

Nor-Guard® OV11J can be used in wet feeds and in water. If the product is used in the drinking water, a Dosatron[®], a Dosmatic[®] or similar can be used through a stock solution. It is recommended that dissolved product is used within 24 hours.

The product is formulated as a free-flowing powder ready for use by home mixers.

Specifications

Contents	Elements rich in natural antioxidants extracted from grapes (<i>Vitis vinifera</i>) and from olive leaves (<i>Olea europaea</i>), with dextrose and maltodextrin as a carriers.
Appearance	Dry, free flowing powder
Stability	Minimum 12 months
