[office@feedadd.dk](mailto:office@feedadd.dk)**Du-Drink™****Description**

**Du-Drink™** is a complementary feed with a high content of natural antioxidants. The product is especially developed to have a high solubility and can be used for all types of livestock. The product is a combination of extracts made from grapes (*Vitis vinifera*) and olive leaves (*Olea europaea*), naturally sweetened with stevia to increase the water intake.

**Du-Drink™** is a unique combination of water soluble and fat soluble antioxidants, and provides all-round effects due to the synergism between antioxidants with different solubility in water and fats.

**Du-Drink™** can be used in wet feeds and in water. The product can be given to the animals by feeding a stock solution of the product to the drinking-water system via a medicator like a Dosatron®, or a Dosmatic®. It is recommended that dissolved product is used within 24 hours.

The product is formulated as a free-flowing powder.

**Specifications**

|                   |   |
|-------------------|---|
| <b>Contents</b>   | Elements rich in natural antioxidants extracted from grapes ( <i>Vitis vinifera</i> ) and from olive leaves ( <i>Olea europaea</i> ), sweetened with stevia and with dextrose and sorbitol as carriers. |
