Nor-Guard® OV11 Concentrate

Description

Nor-Guard® OV11 Concentrate is a premixture (mixture of flavouring compounds) with a high content of natural antioxidants for inclusion in feeds for aquaculture. The product is a combination of an extract made from grape (*Vitis vinifera*) and an extract of olive leaves (*Olea europaea*).

Nor-Guard® OV11 Concentrate contains a unique combination of water soluble and fat soluble antioxidants. The total content of polyphenols is 300 mg/g (Folin-Ciocalteu). The typical antioxidative activity measured by the ORAC value is 4500 µmol TE/g. The product thus provides all-round effects due to the synergism between antioxidants with different solubility in water and fats.

Nor-Guard® OV11 Concentrate can be used in extruded, expanded and pelleted feeds, as well as in meal feeds. The product is formulated as a free-flowing powder ready for use by producers of premixes and concentrates, as well as by feed manufacturers and home mixers.

Specifications

Contents	Elements rich in natural antioxidants extracted from grapes (<i>Vitis vinifera</i>) and from olive leaves (<i>Olea europaea</i>)
Appearance	Dry, free flowing powder
Stability	Minimum 12 months
Storage	Dry, cool (below 30°C)
Packaging	4 kg plastic pails 20 kg fibre drums with inner polyethylene bags

Recommended dosage

Fish and shellfish	15 g/1000 kg dry feed
