Quiponin® S Powder

Description

Quiponin S Powder is a complementary feed developed for use in animal feeds. The product consists of selected botanicals rich in triterpene saponins, standardized with a natural carrier.

Quiponin S Powder can be used in extruded, expanded and pelleted feeds, as well as in meal feeds. The product is formulated as a free-flowing powder ready for use by producers of premixes and concentrates as well as by feed manufacturers and by home mixers.

Specifications

Contents	Elements of Soapbark tree (<i>Quillaja saponaria</i>), quinoa (<i>Chenopodium quinoa</i>), tea seed (<i>Camellia oleifera</i>), vegetable oil, with sepiolite (E562), clinoptilolite (E568) and/or diatomaceous earth (E551c) as an anticaking agent.
