office@feedadd.dk**Alternativ Z-M™****Description**

Alternativ Z-M is a complementary feed developed for use in feed for piglets around weaning in medium pathogenic herds, as an alternative to, for instance, prescription-levels of zinc oxide, or routine batch medication with antibiotics.

Alternativ Z-M is composed of different botanical elements that ensure an appropriate combination of a number of active compounds, with different solubilities and properties. The combination of botanical elements forms a unique interaction, giving the piglets the best possible conditions at weaning.

Alternativ Z-M is formulated so that it may also be used directly by home mixers.

Specifications

Contents	Natural antioxidants extracted from sweet chestnut (<i>Castanea sativa Mill.</i>) and selected elements from fenugreek (<i>Trigonella foenum-graecum</i>), rosemary (<i>Rosmarinus officinalis</i>), tea seed (<i>Camellia oleifera</i>) combined nature-identical elements from the mint family. Diatomaceous earth as anti-caking agent, and rapeseed oil as a dust reducer.
Appearance	Free-flowing greenish powder
Stability	Minimum 12 months
Storage	Dry, cool (below 25°C)
Packaging	15 kg paper bags

Recommended dosage

Piglets	Up to 3000 ppm
