Spiceblend™ Dual HT

Description

Spiceblend Dual HT is a complementary feed consisting of a probiotic, which can be administered in feeds pelleted at up to 90 °C, and selected botanical elements for inclusion in animal feeds.

Spiceblend Dual HT contains a unique combination of water soluble and fat soluble antioxidants originating from extracts of sweet chestnut (*Castanea sativa Mill.*) and dried milled parts from fenugreek (*Trigonella foenum-graecum*) and rosemary (*Rosmarinus officinalis*).

The product is formulated in order that it may also be used in organic production. The contents of conventional spices in **Spiceblend Dual HT** account for 44%.

Specifications

Contents	<i>Bacillus subtilis</i> and <i>Bacillus licheniformis</i> (E1700), in combination with natural antioxidants extracted from sweet chestnut (<i>Castanea sativa Mill.</i>) and selected elements from fenugreek (<i>Trigonella foenum-graecum</i>) and rosemary (<i>Rosmarinus officinalis</i>). Rape seed oil and diatomaceous earth (E551C) and/or Sepiolite (E562).
Appearance	Dry, free flowing powder
Cell count	8.65 x 10 ⁸ CFU/g
